

How can I install AGWA 2.0?

Posted by florinosub - 2007/11/17 07:18

I can't install AGWA 2.0 for ArcGis 9.2. The install is almost complete and then an error appears with the following message:

"Unable to get installer types in the c:\program files\susda-ars\swrc\agwa2\agwa2desktop.dll assembly. --> One or more of the types in the assembly unable to load. Retrive the LoaderExceptions property for more information."

Note: I don't have any service pack installed for ArcGis 9.2.

Please see the other thread.

Having the most recent service packs installed is required for the installation to complete.
